

Honeycrisp Apple

Malus 'Honeycrisp'

Description

('Keepsake' x unnamed seedling) University of MN, 1991. An exciting apple that is exceptionally crisp and juicy. Flavor is sweet but well-balanced. Excellent storage life, up to 7 months. Has been rated equal to or higher in overall quality than 'Haralson', 'Honeygold' or 'Keepsake' in winter storage trials. Ripens in late September in MN and stores like a late season variety. Has become an outstanding commercial and home orchard variety because of its explosive crispness, flavor and storage life. CPBR #1007, C®
